

Punto medio dei seguenti punti

$(1;2)$   $(-3;4)$

$M(-1;3)$

\* Grafico \*

\* Passaggi \*

Formule da applicare:

$$x_M = \frac{x_1 + x_2}{2} \quad y_M = \frac{y_1 + y_2}{2}$$

Svolgimento:

$$x_M = \frac{(1)+(-3)}{2} \quad y_M = \frac{(2)+(4)}{2}$$

$$x_M = \frac{-2}{2} \quad y_M = \frac{6}{2}$$

$$M(-1;3)$$
